

Listen before you build

An approximately 18-second listening preview made from excerpts of three existing WAV assets. It is a sequence of excerpts, not a finished song. Source WAVs and MIDI files are not included in this free preview.

0-6 seconds / Pad

01_Pad_C_120BPM_4bars.wav - a short excerpt with a fade.

What the paid collection contains

132 MIDI files, 22 main WAV loops/pads/textures and 12 bonus WAV effects, plus the producer guide and audio index. MIDI requires an instrument in your music software. This preview alone does not establish suitability for every project.
